Commissioner for Patents
Washington, D.C. 20231

Sir:

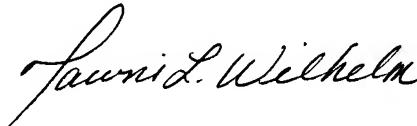

I, Tawni L. Wilhelm, an attorney registered to practice before the United States Patent & Trademark Office and attorney of record for this application, state that:

1. The enclosed paper copy of the substitute SEQUENCE LISTING, as well as the enclosed copy of the substitute SEQUENCE LISTING in computer readable form (CRF), have been prepared to comply with the requirements of 37 C.F.R. §§ 1.822 and/or 1.823.

2. The enclosed copy of the substitute SEQUENCE LISTING in computer readable form (CRF) is believed to be the same as the paper copy of the substitute SEQUENCE LISTING.

3. The SEQUENCE LISTING submitted herewith is believed to contain no "new matter" with regard to the referenced patent application. Modifications have been made in response to the Notice to Comply. Such modifications include a change in the filing date from January 7, 2002 to September 9, 2002 to reflect the date on which the Sequence Listing was submitted. Further changes include proper alignment of nucleotide and amino acid numbering and a change in the "MISC_FEATURE" field of SEQ ID NO:41 to indicate that the 'Xaa' is at only position (186). Applicants have also changed the internal docket number to read "2183-5226US" rather than "2183-52226US" to correct an inadvertent error.

Respectfully submitted,

Tawni L. Wilhelm
